

Power Pouch

Power Container is a world leader in Designing, Developing and Manufacturing PET Inner Pouches for air compressed BOV packaging. This proven technology has been on the market since 1985 and continues to be used in many different applications. The PET inner container is a very tough robust one-piece monolithic pouch with high structural integrity. In addition, the pouch offers the ability to utilize unique shaped outer containers which can advance your product to stand out in the market. PCC offers a wide range of pouch size option and actuators to support all your dispensing needs. Our strongest area is in our technical services and support. Speak to our experts and understand completely how PCC can be your next partner for innovative packaging.

Flexible – Compatible – Innovative – Competitive – Turn key
